

# BIPSandplate™

**BIP Company** is *raising the bar* in the building industry and setting new standards for productivity, efficiency and sustainability in the concrete industry.

All BIP products are manufactured from environmentally friendly regrind plastic. They are durable, non-corrosive and lightweight—designed to make your job go faster and more easily.

PLATES SNAP TOGETHER AS SHOWN.

Connecting Points for Spacing & Trenching Applications

- Connect bases for multiple chair placement
- Increases base size up to 4 inches in width
- Use as a spacer for trench work
